

Metal Plating For Businesses Tempe

A precious metal plating facility that gets it- our concept is simple, yet effective. "Service" is a term that often gets used but is rarely implemented. From the moment you contact us, you will experience satisfying internal relationships that effectively allow us to adapt to your needs.

Gold plating is essential in the manufacturing process and in many cases components are not complete without it. At Foresight Finishing, our core technology is plating, but our team comes from both plating and manufacturing backgrounds. Our employees have inspected parts with 400+ dimensions, worked with source inspectors and understand the time and effort that goes into manufacturing.

Product Guide

Foresight Finishing utilizes state of the art vibratory barrel plating equipment along with high throw plating chemistry allowing us to plate small fragile components with deep recesses and blind holes. Foresight Finishing specializes in precious and non-precious metal plating.

We currently provide copper, nickel and gold plating for Aerospace, Defense, Medical, Electronic, major OEMS and general job shop facilities. NADCAP, AC7004, AC7108, ITAR. Lean Manufacturing, OSHA, and the EPA were all influential in the design and build out of our state of the art facility. The plating lines themselves were designed by a plater for a plater. This means our production lines are built for maximum production while being able to maintain process controls and chemistry.

NADCAP

Foresight Finishing LLC was established in October 2010. Since our inception, we have focused on providing our existing and potential new customers with the highest regards to quality, delivery and service.

As the bar is raised, we must continuously re-invent our methodology ensuring compliance and integration of process controls and regulatory standards in advantageous ways.

Foresight Finishing LLC is proud to announce, we have received our Nadcap accreditation for Chemical Processing and Aerospace Quality Systems.

Thanks to our staff, we have incorporated our systems so there is no added cost to our customers who require Nadcap plating services.
